

10th Annual
Willamette Valley Permaculture
2010 Design Course

Tools for Self-Reliant Living

Jude Hobbs And Guests:

Toby Hemenway, Tom Ward, Andrew Millison & Others

January 9/10

April 10/11

February 13/14

May 8/9

March 6/7

June 12/13

8:30 - 5:30

Permaculture is an ecologically based whole-systems approach to design. Through an evolving set of principles and strategies, one can creatively integrate human and natural systems in ways that encourage abundance and sustainability.

The **Cascadia Permaculture Institute**, in collaboration with Permaculture Institute USA, invites you to join this comprehensive **Certification** course. ~ Gain a clearer understanding of theory and practice of ecological design through lecture, discussion, slide shows, field trips, design projects, and hands-on experience.

COURSE TOPICS INCLUDE:

- Permaculture Ethics & Principles
- Natural Cycles and Pattern Recognition
- Observation & Site Analysis
- Reading the Land
- Mapping and Design Exercises
- Water Harvesting, Management, & Conservation
- Building Soil Ecology
- Edible Landscaping and Organic Gardening
- Useful Plants and Planting Strategies
- Animals and Their Place in the System
- Forests, Agroforestry, & Tree Crops
- Green-Building & Appropriate Technologies
- Urban Permaculture & Village Design
- Cooperative Economics

TUITION

\$600.00 - \$550.00 (Sliding Scale)*

Partial Work Trades Available (local only)

Includes: Instruction & course materials

Non-refundable deposit: \$100 Deadline 1/4/10

LOCATION: Dharmalaya Center Eugene, OR.

* Extra contributions, to support scholarships, gratefully accepted!

WHO WOULD BENEFIT FROM TAKING THIS COURSE?

Educators, farmers, government officials, engineers, architects, landscapers, gardeners, activists, artists, and anyone interested in effective design

Register now for this life-changing course!
