- Oregon Sustainable Agriculture Land Trust: <http://www.osalt.org/home.html> • Coalition of

Mushrooms

- Mushroom Cultivation: <http://www.mushroomcouncil.com/grow/grow.html>
- Indoor Mushroom cultivation
<http://members.aol.com/PeroxyMan/>
- Fungi Perfecti Catalog: PO Box 7634 Olympia, WA 98507 206-426-9292

Plants

- The PLANTS Database maintains and generates data reports in specialized areas: Alternative Crops, Characteristics, Checklists & Searches, Classification, Culturally Significant, Distribution Update, Excluded and Anomalous Names, Fact Sheets, Invasive & Noxious, Plant Materials Publications, Threatened & Endangered, Wetland Indicator Status
<http://plants.usda.gov/>
- Plant Dictionary www.hcs.ohiostate.edu/plants.html
- Urban Agriculture Notes cityfarmer.org
Maintained by a group in Vancouver, BC-how to grow food in densely populated areas
- Plants for a Future <http://www.scs.leeds.ac.uk/pfaf/index.html>
Excellent site for exploring plants. descriptive of 7,000 plants
Web: <http://www.pfaf.org/>
Main Site: The Field, Penpol, Lostwithiel, Cornwall, PL22 0NG, England
Email: pfaf@scs.leeds.ac.uk (web related queries only)
- USDA: Cross referencing common and botanical names, plant characteristics, photographs.
<http://plants.usda.gov/plantproj/plants/index.html> >(from garden gate 6/99)
- Oregon State University
www.oregonstate.edu/dept/ldplants/index.htm-excellent site for viewing plants that are hardy in the PNW
- <http://www.neoflora.com> thousands of plants w/ many characteristics

- Oregon Plant Atlas
<http://www.oregonflora.org/oregonplantatlas.html>

Seeds

- Seedsaving and Seedsavers Resources"
<http://homepage.tinet.ie/~merlyn/seedsaving.html>
horticultural plant genetic resources, the how & why of seedsaving, on sources (world-wide) for organic, heirloom, open-pollinated and non-GMO seed and plants, on seed-swapping with other gardeners/growers, on crop and varietal information etc. <http://www.earthseed.com/>
- Seeds of Change <http://www.store.yahoo.com/seedschange>
Wonderful selection of heirloom, traditional, medicinal, and original seed varieties-
- *Organic Seed Alliance* Supports the ethical development and stewardship of the genetic resources of agricultural seed.
<http://www.seedalliance.org>

Soil

- Sustainable Soil Management: <http://www.attra.org/attra-pub/soilmgmt.html>
- Elaine Ingrams soil site- full of fascinating info.
soilfoodweb.com
- The role of microbial communities in recoupling Carbon and Nitrogen cycles in the transition to organic soil management:
<http://vivo.library.cornell.edu/entity?home=5&id=16359>

Water

- Ken Yeoman's e-mail in Australia
<http://www.keyline.com.au/> How does keyline work, consultation fees
- U.S. Geological Survey Launches Website For Nation's Water Data
<http://water.usgs.gov/waterwatch> disseminate water-quality data from rivers and aquifers, historical ground-water level data, and real-time water quality, precipitation, and ground-water levels: http://water.usgs.gov/waterwatch/index.php?map_type=real&state=or
- Water saving tips: <http://www.eweb.org/Home/water/index.htm>
- Water Harvesting in Drylands: <http://www.harvestingrainwater.com/>
